20 + Freight trains per day would virtually cripple auto/ambulance/fire truck traffic throughout all of Barrington area.

There are also serious issues of noise & air pollution.

Both of our children (not to mention all families both of the railroads) would be severely hampered traveling to and from schools - enabling only emergencies to the schools - not to mention travel to and from all businesses located on either side of the tracks.

This is not a rural area. It is packed with commuters and businesses that can not tolerate this kind of impact.

What scoping meeting did you attend? (Please circle): Mundelein, Barrington, Joliet, Matteson, Gary, West Chicago, Chicago.
